

PRICING MANAGEMENT

WGS for NetSuite is built specifically for Gas and Welding Supply Distributors by extending the world's #1 cloud-based business software suite - NetSuite. Get the scalability, accessibility, and flexibility of NetSuite without compromising on the unique features needed to support your business.

Key Benefits

- + Maintain flexibility with branch-specific and customer-specific pricing for cylinders and hard goods
- + Set customer price tiers by branch, category, or item
- + Price how you want - by level, increase from cost, gross margin, or fixed amount
- + Handle exceptions with layered pricing rules that allow specific pricing down to the item level with fall-back rules up to the category, vendor, or standard price tier

Highlighted Features

Manage price changes with automated tools that include approval routings, automatic effective dates, and full change logs

Use Service Agreements to automatically freeze customer pricing for periods of time

Define changes by item or category and have them apply across the board

Exempt specific customers from new pricing

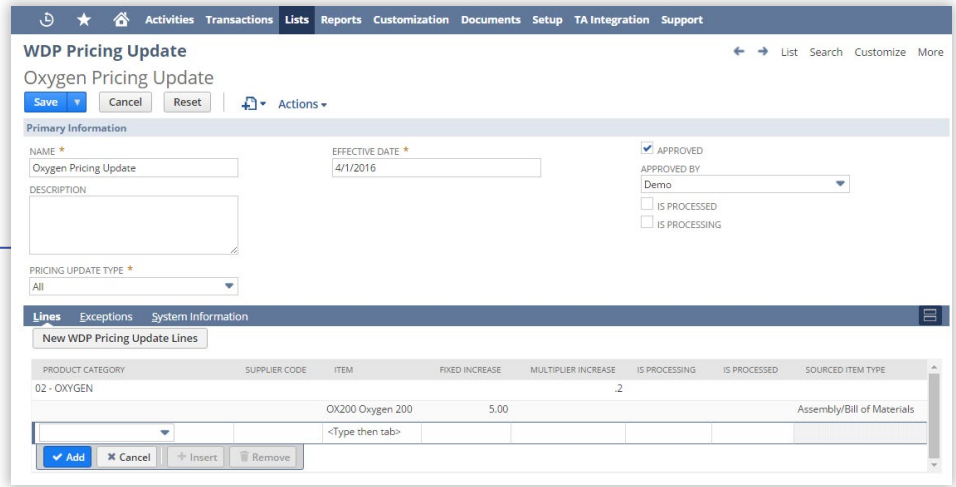

Easily apply new prices globally, while respecting existing customer-specific and item-specific price rules

Powerful Pricing Management Tools

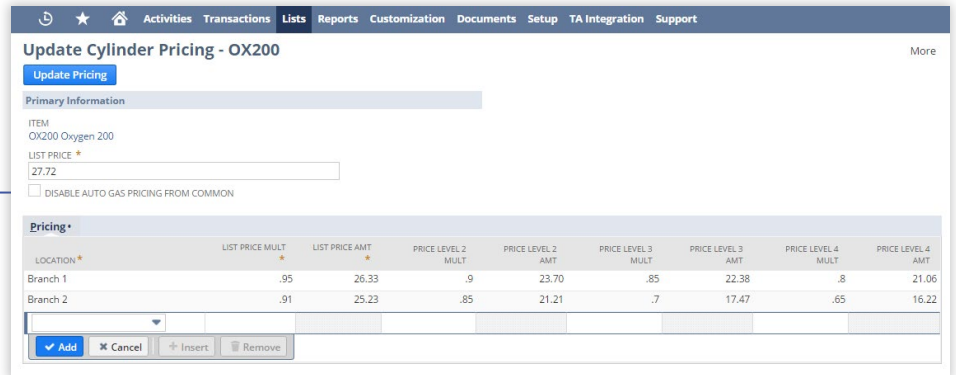

Take Control of Pricing

Set prices by level, gross margin, or fixed amounts, then add customer-specific price tiers by branch, category, or item. WGS for NetSuite ensures that you can set the price you want, rather than the price your system forces you to choose.

Need to make Updates?

Update item or category pricing in a single place, and have changes applied system-wide. Control pricing changes with automatic change logs and customized approval tools.
