

# BRANCH MANAGEMENT

**WGS for NetSuite** is built specifically for Gas and Welding Supply Distributors by extending the world's #1 cloud-based business software suite - NetSuite. Get the scalability, accessibility, and flexibility of NetSuite without compromising on the unique features needed to support your business.

## Key Benefits

- + Streamlined back order management with automatic commitment of received items to delivery tickets
- + Flexible pricing with branch-specific list and tier price levels
- + Reduced data entry and fewer mistakes through seamless integration with asset-tracking software for order, customer, cylinder, and delivery information
- + Increased visibility to branch performance through margin validation and branch-specific sales and delivery data

## Highlighted Features

Quickly print delivery tickets that are ready for shipment while respecting each customer's preferences to "ship complete"

Easily receive purchase and transfer orders and manage their allocation to sales orders

Efficiently review and batch generate daily invoices

Automatically generate back orders from both sales and transfer orders based on actual delivery data

# Analytics Where & When You Need Them

Full Branch Manager dashboard with real-time metrics and data at your fingertips

Full profit & loss reporting by branch

Branch-specific sales, rental, and delivery information segmented by sales rep, product type, customer, and more

## Quick Invoicing

Review orders by branch on a single screen, allowing for daily invoice generation at the push of a button.
